## Winter Safety Tips

- Brake sooner, not harder
- Give yourself extra time to get to your destination
- Increase your following distance
- Keep a full tank of gas in your car
- Don't use cruise control while driving on snow and ice
- Keep a survival kit in your car at all times
- Check weather conditions often, and keep a safe distance behind snow plows
- Clear snow and ice from your vehicle (*failure to do so can lead to a fine of \$110*)
- Keep *OPP* and *NAPS* numbers handy with a fully charged cellphone (1-888-310-1122)
- To check provincial highway conditions go to [www.ontario.ca/511](http://www.ontario.ca/511) or call 511
- ***If you get stuck in the snow*** stay with your vehicle as it will provide temporary shelter and will make it easier for rescuers to locate you
- Be Visible: Place a brightly coloured cloth on your antenna or wedged in your door
- Clear the Exhaust Pipe: Ensure your exhaust pipe is not clogged with snow, ice or mud - if blocked, it can cause a deadly carbon monoxide gas leak into you car
- Stay Warm and Conserve Fuel
